Re: Notice of Ex Parte in CG Docket Nos. 03-123

Dear Ms. Dortch:

On June 16th, 2017, Peter Hayes, CEO of VTCSecure, LLC, met with Zenji Nakazawa Public Safety and Consumer Protection Advisor.

Peter Hayes described the history of VTCSecure's platform and their recent application for an IPCTS certification. Peter Hayes also discussed the recent RTT to TTY converter software as well as their NG 911 SOLVES platform. The discussion was around VTCSecure to potentially open source it's platform or provide free licensing for use by PSAPs and Emergency Response Personal. This would allow organizations to upgrade their PSAPs without the need for a large capital expenditure but still provide the ability to do Voice, Video, Real Time Text, File Sharing, GPS, SMS etc.

Respectfully submitted,

Peter Hayes
CEO
VTCSecure, LLC
